WHY BE CONCERNED ABOUT MOLD?

Mold can be found in virtually every home. When mold spores combine with moisture found in fiber insulation, a toxic brew is created which can lead to a lifetime of sore throats and flu-like symptoms which can mask even more serious health issues.

MOISTURE MANAGEMENT

Our insulation is an essential moisture management system. Our waterproof foam is unaffected by moisture, therefore eliminating the problem. It helps keep the indoor humidity at a level which promotes good health. Controlling humidity can also add years to the life of your home.

thermosaver Closed-Cell Spray Foam Insulation

IMPROVED ENERGY EFFICIENCY

Thermosaver closed-cell foam insulation provides exceptional R-value of 7.14 per inch, which results in heating and cooling cost savings. Drafts are virtually eliminated so a more uniform indoor temperature is maintained. Thermosaver doesn't settle over time, so you will enjoy these savings for the life of your home.

ENERGY COMPARISON *Closed-Cell Insulation vs. Traditional Insulation*

Case Study	Fiberglass Insulated Home	Closed-Cell Foam Insulated Home	Closed-Cell Insulation Energy Savings
10 identical homes in Roanoke, VA	769 gallons propane = \$2437.73	321 gallons propane = \$1017.57	58%
Comparable 2400 sf residences, Sacramento, CA	Monthly average utilities = \$494	Monthly average utilities = \$256	48% \$238/month average savings
Comparable 1800 sf residences, Atlanta, GA	Monthly average utilities = \$288	Monthly average utilities = \$180	38% \$108/month average savings

CASE STUDIES REPORT SAVINGS OF UP TO 58% WITH R 7.14 FOAM
